## **Soloy Expands Dealership of Aerospace Filtration Systems (AFS) Products**

Olympia WA, USA – Soloy Aviation Solutions (Soloy) and Aerospace Filtration Systems, Inc. (now branded as Donaldson), recently agreed to expand Soloy Aviation Solutions Distributor Agreement to include Donaldson Inlet Barrier Filter (IBF) products. This product line distributor expansion allows Soloy to offer inlet barrier filters to operators of aircraft currently approved with Donaldson IBF products. “Now Soloy can offer its support for sales and installations for Donaldson IBF products to operators around the globe” said Nick Parkinson, Soloy’s Director of Helicopter Sales and New Business. “The proven benefits of enhanced performance, maintenance cost reduction and reduced overhaul cost are becoming well-known in the industry as more and more operators realize the actual savings from the Donaldson IBF filtration system.”

Soloy is committed to customer support by offering significant safety and performance solutions to the helicopter and general aviation communities with its full service development, engineering and manufacturing capabilities. “Our partnership with Donaldson is good for our customers. We can work together to develop other barrier type filter installations,” added Parkinson.

### ***DONALDSON'S AEROSPACE & DEFENSE GROUP***

Donaldson’s Aerospace and Defense Group is a leading worldwide provider of filtration systems for the aerospace and defense industry. Their filtration solutions protect fixed wing aircraft, rotorcraft, military ground vehicles, electronic equipment, space vehicles, missiles, military shipboard systems and amphibious products. <http://www.donaldson.aero> or <http://www.afs.donaldson.com>
